

## NEWCOMERS' FEEDBACKS ON F.A.R.E

« F.A.R.E was very helpful with my job search. After many years abroad without working, I had to relearn how to write a CV, prepare interviews... The video meetings allowed really interesting and constructive discussions. The F.A.R.E team helped me recover self confidence. They introduced me to the right companies, that led to my first permanent contract in 17 years... Thanks F.A.R.E. »

**Véronique T.**

« Getting this new job in the region at the beginning of the 1st confinement jeopardized our departure from Paris. Thanks to F.A.R.E, we easily found an accommodation and we were guided step by step in our day care and school search for our child. The guided city tour of Le Havre showed us the many attractions of the city. We felt favoured and so well taken care of despite the complicated sanitary conditions. Currently, we still ask F.A.R.E for help and we are never disappointed. »

**Imane B.**

« I want to thank the F.A.R.E team for its support. It helped my personal and professional integration. It's an advantage to have a structure helping with accommodation search and social networking, especially in the current context. Thanks to the guided tour of the city and the event in Le Havre I made new relationships and friends. »

**Emilie G.**

« We received a first class service from F.A.R.E by CCI as we relocated from Paris to Fecamp. We had a first introduction call where ideas and suggestions were shared of possible locations and options to live which was very positive and after it scheduling of all visits was organized by the F.A.R.E team. Once we had chosen our house, they helped us through the negotiation process as well and also set up the accounts for water, electricity and garbage collection. We only have positive words to say about the service received and our move was truly hassle and problem free. »

**Stig L.**
